

VINSTUDION

Wine list

Our Vision

In times of quantity, we strive for quality.

We aim to deliver high quality through small wine producers all over the world. Our wine list is highly animate and we aim to work with wine made with biodynamic principles. Changes to the wine list are made regularly and most bottles are bought in small volumes, so keep sure to check our latest updates on Star Wine List.

When coming to us, you will notice that we want to make wine available for everyone, thus having many more bottles beyond our wine list which we sell by the glass. Of course we are passionate about beer, spirits and non-alcoholic drinks as well, so feel free to ask us about our current assortment!
